

Feature Guide

Detailed capabilities across every eBodhya module

Assessment Engine

- Test creation for any subject, class, and board curriculum
- Worksheet generation with topic-level practice sets
- Question paper generation with section-wise configuration
- Blueprint support — define section marks, question count, and type distribution
- Difficulty balancing: Easy / Medium / Hard / HOTS
- AI-assisted paper creation with model answer suggestions
- Board-specific paper patterns: CBSE, ICSE, IB, Cambridge, State Boards
- Reusable templates for recurring assessments
- Scheduled test publishing and assignment to student groups

Question Bank

- Board-wise, class-wise, subject-wise, chapter-wise, and topic-wise organization
- Difficulty levels: Easy, Medium, Hard, HOTS, Competency Based
- Question types: MCQ, Assertion Reason, Case Study, Short Answer, Long Answer
- Curriculum tagging for instant board-aligned retrieval
- Teacher-contributed questions with review and approval workflow
- Bulk question import
- Search and filter with multiple parameters simultaneously
- Question usage tracking — see which questions have been used in past papers

Evaluation Engine

- Upload scanned or photographed answer sheets in bulk
- OCR-based handwritten answer extraction
- AI-assisted evaluation against model answers
- Rubric-based scoring with configurable tolerance
- Teacher review interface with question-by-question override
- Feedback generation per answer with constructive comments
- Score calculation with section-wise breakdown
- Bulk evaluation with batch processing
- Per-student and per-class evaluation reports

Feature Guide

School Analytics

- Student-level performance tracking across all assessments
- Class-level performance overview with trend analysis
- Subject-wise performance breakdown
- Chapter-wise and topic-wise analytics
- Learning gap identification — expected vs actual performance
- Progress monitoring over time with configurable date ranges
- Comparative analysis across classes and batches
- Exportable PDF and CSV reports

Teacher Workspace

- Unified dashboard for all teacher tasks
- Create and manage tests, worksheets, and question papers
- Assign assessments to individual students or groups
- Review and finalize AI evaluations
- Track student submission and completion status
- View per-student and per-class performance analytics
- Generate and share reports directly from the workspace
- Notification centre for pending reviews and submissions

Group Management

- Create student groups by class, section, or custom criteria
- Manage group membership with bulk operations
- Assign assessments to specific groups
- Group-level analytics and performance reports
- Teacher-group assignment for multi-teacher schools
