

Product Overview

eBodhya — AI-Powered Academic Operating System

What eBodhya Does

eBodhya gives schools, teachers, and academic administrators a unified platform to manage the entire assessment lifecycle — from creating question papers to evaluating answer sheets and tracking student progress — powered by structured AI that keeps educators in control.

Module Summary

Module	Primary Function	Key Users
Assessment Engine	Test, worksheet & question paper creation	Teachers
Question Bank	Curriculum-aligned question repository	Teachers
Content Studio	Academic content generation & management	Teachers, Admins
Evaluation Engine	OCR + AI-assisted answer evaluation	Teachers
School Analytics	Performance tracking & gap analysis	Admins, Teachers
Group Management	Student cohort & group management	Teachers, Admins
Remediation System	Targeted learning gap interventions	Teachers
Teacher Workspace	Unified teacher workflow interface	Teachers

Key Differentiators

- Designed specifically for Indian and international school boards — not adapted from generic tools
- AI that assists teachers, not replaces them — every output is reviewable and correctable
- Evaluation engine handles OCR and AI scoring while keeping teacher corrections front and centre
- Blueprint-driven assessments ensure compliance with board paper patterns
- Institution-wide analytics from a single integrated data source
